Significance: This building is a large garage that was listed as non-contributing in the Veterans Cottages Historic District, part of the Historic Resources of the Wisconsin Veterans Home that is listed in the National Register of Historic Places. For a more detailed discussion of the significance of the resources discussed in this report, see page 1 of the overview history narrative.

Description: This large, frame, one-story garage has a hipped roof covered with green asphalt shingles, and the walls are covered with shiplap siding. There are four individual bays, each large enough for one automobile. The foundation is concrete block, but the floor is gravel. The large double doors covering the bays are large and made up of vertical boards. The doors open out, and have simple hinges and closures. In the rear wall of the garage are four single-light double-hung sash windows that are not decorated. (See photographs WI-323-K-1 and WI-323-K-2)

History: This garage was built around 1940. The builder is unknown. It has been used as a garage for nearby cottages and continues to be used as such today.
